

Benefits for Your Organization

Submit cleaner claims with “triple-check” process

- Create continuity between care required, care provided, and care reimbursed
- Locate inconsistent, missing, or inaccurate information in your UB-04 BEFORE submission
- Save time by automating the manual, time-consuming UB-04 check

Drive revenue

- Discover areas supported by MDS, but missed on a claim
- Get paid faster with cleaner claims

Minimize audit risk

- Uncover where billing is unsupported by the underlying MDS
- Bring exceptions to your attention

Guide performance improvement

- Evaluate and improve UB-04 claims
- Coordinate clinical MDS and financial UB records

Enhance your billing processes and increase cash flow with **ABILITY | UBWATCH!** By detecting and revealing unintended billing patterns, **ABILITY | UBWATCH** helps you avoid suspended claims, CMS audits, demand for repayments, False Claim Act issues, under/over billing, and other missed opportunities that may result in lower revenue.

Using a system of logic designed specifically for Universal Bills claims, **ABILITY | UBWATCH** methodically reviews each UB prior to submission and alerts you to any inconsistencies or potential compliance issues which may delay payment or decrease revenue.

ABILITY | UBWATCH helps coordinate financial UB records, tracks patterns and trends, and makes sure you’re being reimbursed for the services provided. Ensure consistency between your MDS and claims by adding **ABILITY | UBWATCH** to your **ABILITY | CAREWATCH®** service.

Product Features

- **Built-in “triple-check” process** designed specifically for Universal Bills (UB) claims detects and alerts users to any format and inconsistency errors and warnings
- **Easy implementation, with minimal IT involvement** – ABILITY web-based services are compatible with current versions of industry-leading browsers

ABILITY | UBWATCH®

- **ABILITY | UBWATCH® added to ABILITY | CAREWATCH®** lets you coordinate MDS and financial UB records as well as track patterns and trends. You’ll be able to meet CMS expectations – as well as your own – that services and reimbursement are in balance.

Take advantage of ABILITY | CAREWATCH and ABILITY | UBWATCH.

ABILITY | CAREWATCH helps you prepare for surveys, obtain correct reimbursement, lower costs, and enhance resident quality of life by assisting staff with every aspect of the RAI process. Together with **ABILITY | UBWATCH**, you’ll be able to improve data consistency, conduct more thorough assessments, monitor quality, and support continuous improvement plans.
